

THE UNIVERSE OF ZUCCARI

product directory

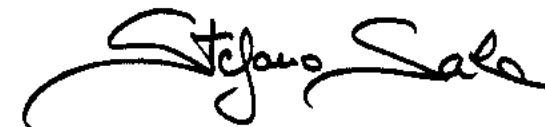

I've always been passion-driven: a never-ending study about the issues that haunt humankind. I devoted my life and my business to find out natural solutions that could help everybody to get the perfect balance between body and mind.

This mission became real with ZUCCARI, established back in 1993 with my wife Katja and my father Giorgio, here in Trento where I was born and raised. We had been facing all the features of a very competitive and aggressive market, so we had to choose a way to stand out. We went for cutting-edge formulas, sophisticated products, sparkling communication and a never-seen-before wellbeing culture spread through books translated in several languages. We aim at turning every customer into a mindful human being, free to choose for himself or herself.

“There's no innovation without emulation” – ZUCCARI embraced this mantra to the extent that it keeps its pioneering and visionary mindset, pitching projects consistent with reality, improving it without interfering with its ways. Sometimes we took the less traveled road, sometimes we've been the “lonewolves” and time said we were right: year after year we've been building a solid company, among leaders in the industry, valued by professionals and loved by consumers.

Today ZUCCARI represents the Italian excellence in the world of food supplements, skincare and holistic wellbeing, the point of reference for every-one believing that “nature” means something more than just “natural”.

CEO & Founder

100 ITALIAN EXCELLENCES Award

At Palazzo Montecitorio, seat of the Chamber of Deputies of the Italian Republic, **ZUCCARI was awarded as the only Italian excellence in the Natural and Holistic Wellness category**. During the 11th edition, ZUCCARI was nominated and recognized according to rigorous criteria that take into account innovation, performance, and growth, with particular attention to export and digitalization. This is an honor granted within an institutional setting: a recognition of ZUCCARI's value in terms of innovation, quality, and representation of Made in Italy.

Palazzo Montecitorio, Italian Government.

ALOE VERA

NATURE'S EFFECTIVENESS IN A LEAF

Aloe vera is a real open-air chemical laboratory, able to synthesize (by using only water, sun and an impoverished soil) a great amount of active ingredients like: **water-soluble and fat-soluble vitamins, plant proteins, essential aminoacids, organic acids, enzymes and polysaccharides compounds in an extraordinary balanced mix.**

1

Extraordinary for the organism

- Supports digestive function and the well-being of the digestive tract
- Promotes the body's natural detoxification processes

2

Ideal for the skin

- Hydrates • Protects • Soothes • Repairs

ALOE VERA BY ZUCCARI

TOP-QUALITY ALOE SINCE 2001

ZUCCARI has developed an **Exclusive Aloe Vera Production Protocol** to ensure a complete range of bioactive products.

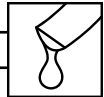

1  **FIRST CHOICE**
Only from certified plantations*

2  **HAND HARVESTING**
We select the healthiest, most succulent leaves

3  **MANUAL WASHING**
We reduce the bacterial load without chemical treatments

4  **MANUAL FILLETING**
We extract only the inner fillet, preserving its purity

5  **COLD FLUIDIFICATION**
We obtain juice and gel without altering their bio-activity

6  **COLD PROCESSING**
We say no to pasteurization, as it may impoverish the raw material and reduce its activity

7  **REVERSOSMOSE®**
Double concentration through a respectful filtration process

Why do we cold-process Aloe vera?

Aloe value relies on its **delicate active principles** which fear aggressive treatments and temperature changes. **Pasteurization could depauperate the raw material**, reducing its activity.

Control, analyse, assess quality: how ZUCCARI guarantees Aloe vera

Each batch of raw material goes through **in-depth analysis** to monitor our Aloe before, during and after processing. So when you choose **ZUCCARI quality Aloe vera**, you have the guarantee of products that can make a real difference for you, every day.

ReversOsmose®

[aloevera]² product range is obtained through ReversOsmose®, a process applied for the first time ever to Aloe vera. Reverse osmosis, also known as hyper filtration, is a mechanical process that doesn't alter raw material's bioactivity.

A membrane constitutes an obstacle that allows to separate water from Aloe, resulting into a concentrated raw material.

*Certification no. ICS-06119-2010 Certified by: International Certification Services.

ALOE VERA ZUCCARI

ALOE JUICES AND FOOD SUPPLEMENTS

ZUCCARI is a leader in Aloe vera production thanks to its **exclusive manufacturing protocol**, which guarantees the bioactivity of the raw material from harvest all the way to you.

The result is pure juice from **certified plantations***, cold-processed, not charcoal-filtered, with no added water, and **double-concentrated** through the ReversOsmose® process.

The properties of double-concentrated Aloe are also applied to other “specialized” juices and food supplements, **enriched with particularly effective active ingredients**.

Our double-concentrated Aloe vera is also used in two medical devices, **Aeromucil** (aerosol ampoules) and **Mayday GastroSolution**, as well as in **Mayday Emulgel**—an innovative nano-emulsion designed to treat the most common consequences of trauma and bruising, as well as widespread muscular and osteo-articular discomfort—and **AloeColor**, a third-generation hair dye that revolutionizes the hair coloring experience.

*Certification no. ICS-06119-2010 Certified by: International Certification Services.

ALOE OFM® THE EXTRAORDINARY HEALTH BENEFIT OF ALOE ARBORESCENS IN A VITAL SYNERGY

Aloe OFM is a formula inspired by the one widespread among missionaries all over the world, used to treat populations who didn't have the credit to fully access a welfare system. The administration in several countries has put **Aloe arborescens** (along with its high concentration of active principles) under the spotlight and it has led to consider its **healthy benefits especially when mixed with honey and brandy**. Aloe OFM is ideal in those cases when the body is particularly weak and needs more help.

FORMULATION

- **ALOE ARBORESCENS:** thanks to the high concentration of active principles, it delivers significant health benefits and it's great to sustain and detox also the weakest bodies
- **HONEY:** it prepares the body to absorb Aloe active principles
- **BRANDY:** a few drops per dose are enough to ensure a vasodilatory effect, plus it bonds with honey and Aloe in an extraordinary vital synergy

THE THIRD GENERATION HAIR COLOR LINE
THAT REVOLUTIONIZES THE HAIR DYE EXPERIENCE

An absolute innovation that brings ZUCCARI quality Aloe vera into the world of home hair coloring. **Aloecolor® is the effective and gentle hair color treatment for even the most sensitive and reactive scalps** because it contains the exclusive Aloeroxide® patent: the water normally added to hydrogen peroxide is replaced by Aloe vera, which offers multiple benefits: **it relieves the sensation of itching and irritation, smoothes and tones the scalp, has a greater protective action on the hair and promotes better hydration.**

ALL THE BENEFITS THAT ONLY
THE ALOECOLOR RANGE CAN OFFER

- **IT NOURISHES** with precious Argan, Macadamia, and Olive oils
- **IT HYDRATES** with Hyaluronic Acid from Aloe (AJDA Patent)
- **IT SOOTHES** skin with ZUCCARI's quality Aloe vera
- **IT PROTECTS** the hair while enveloping it with rice hydrolized proteins
- **IT REPAIRS** and strengthens with ceramides and aminoacids
- **IT SEALS** the hair by closing the cuticle

Fear not, your eyes aren't deceiving you!
This is no ordinary hydrogen peroxide.

ALOECOLOR®

THE REVOLUTIONARY THIRD GENERATION HAIR COLOR LINE

The first hair dye line without ammonia and without para-phenylenediamine, but with **Aloeroxide®**. So **innovative**, it's protected by a patent. In its formula, the water normally added to hydrogen peroxide is replaced with ZUCCARI-quality Aloe vera: moisturizing, soothing, and softening. All the most loved and natural shades.

MAYDAY EMULGEL

GIVING THE GREEN LIGHT WITH YELLOW

From ZUCCARI, the innovative nano-emulsion that acts in depth and with a broad spectrum of actions, treating the most common consequences of **trauma and bruises and the most common muscle and osteo-articular discomforts.**

To be applied onto intact skin in case of trauma, bruises, muscle pain and in the skin areas corresponding to areas subject to **stiff neck, myalgia, epicondylitis, joint or tendon and ligament disorders, sprains and muscle tears.**

NANO-EMULSION, AN UNPRECEDENTED INNOVATION FOR A FUNCTIONAL SYNERGY

Mayday Emulgel was developed in **nano-emulsion** with **high skin affinity** for a **homogeneous delivery of active ingredients** through **liposomes of very small size.**

WHAT ARE LIPOSOMES?

Liposomes are small or very small vesicles (nanosomes), i.e., micro-cells of a very small size with a lipidic structure similar to that cell membranes: this results in high compatibility and a higher and deep efficacy.

**CONTUSIONS
MUSCLES
JOINTS**

MAYDAY EMULGEL

INNOVATIVE FORMULA WITH BROAD-SPECTRUM ACTION. IT ACTS FAST AND DEEPLY

The **broad-spectrum action** of Mayday Emulgel derives from its **rich exclusive formulation** made with a plurality of **highly titrated and specifically active botanical components: Parthenium and Hypericum extracts for effective soothing action**, even on **sore areas; White Willow extract and natural Bisabolol** to act locally on skin, including at tissues subject to **inflammation; Pineapple and Boswellia extracts** (titrated to 65 percent in boswellic acids) for an **anti-swelling effect; bio-active Horse Chestnut extract** (titrated to **90% escin**), also applicable onto skin areas subjected to **bruises and hematoma.**

Mayday Emulgel is formulated **without added water**, substituted with **unpasteurized, twice concentrated ZUCCARI's Aloe vera** for an even **more soothing action.**

BROMELAIN

A SPECIAL ACTIVE PRINCIPLE

Bromelain is a proteolytic enzyme **naturally found in pineapple**, capable of breaking down proteins into amino acids. It has been **used for decades as a key active ingredient** due to its valuable effects on the body. As a natural therapeutic substance, it is **widely used in medical, pharmaceutical, and herbal industry** — primarily for its **anti-inflammatory** and **anti-swelling** properties. Bromelain is typically recommended in **cases of inflammation**, especially when accompanied by edema, and when these conditions affect: **muscles, tendons, the respiratory system, the urogenital system, nerves, and mucosae.**

Thanks to its **high tolerability**, Bromelain is particularly suitable for **long-term use** and for managing **chronic conditions**, such as: **arthritis, osteoarthritis, and age-related pain.**

CIRMOLO, AKA SWISS PINE: THE TREE OF SLEEP AND RELAXATION

The Cirmolo (or Swiss Pine) is a **rather rare conifer** found only in certain areas of the Alpine arc. It is also known as the “tree of sleep” and is used for its **aromatic wood** in all spaces where relaxation is paramount (such as saunas and spas) and where deep, restful sleep is essential (such as in the bedrooms of the most prestigious hotels). Even today, Cirmolo wood is preferred for decorating mountain homes, especially in the stube, the room dedicated to social gatherings. In the past, having an entire decor made of Cirmolo wood was a noble privilege; today, one can still visit castles where the Cirmolo continues to release its natural calming fragrance.

*Mag. Vincent Grote, DI Helmut Lackner, Dr. Franziska Muhry, Michael Trapp, Univ. Prof. Maximilian Moser - "Evaluation der Auswirkungen eines Zirbenholzumfeldes auf Kreislauf, Schlaf, Befinden und vegetative Regulation," October 2003

CIRMOLO WORKS

AND CLINICAL STUDIES CONFIRM IT

An independent study conducted with European Union funding at the Joanneum Research Institute (Austria)* in 2002 examined the effects of Cirmolo, revealing remarkable results:

- **HEARTBEATS SAVED** - As many as 3,500 fewer heartbeats were measured, which over the course of a day means saving the heart about an hour of work.
- **INCREASED RELAXATION** - Positive effect on the nervous system with significant stress reduction.
- **LESS WEATHER SENSITIVITY** - Less sensitivity to changes of air pressure and air humidity and **improved general well-being**.

CIRMOLO ALPINE RELAX®

CREATE THE PERFECT SLEEP AND RELAXATION ROUTINE FOR YOURSELF!

Drawing from the ancient wisdom of Alpine communities, ZUCCARI has developed a broad range of solutions that **deliver the benefits of Cirmolo** through **pure essential oils, food supplements, cosmetics, home&living and pedagogical tools**. These products are carefully designed to allow everyone **to create their ideal sleep and relaxation routine tailored to their personal needs and desires** at any time of the day.

SLEEP AND RELAX

CIRMOLO ALPINE RELAX® DROPS OF QUIETUDE

The Drops of Quietude Cirmolo Alpine Relax are made of **100% pure and bio-active Cirmolo essential oil**, extracted through steam distillation.

This is pure and natural Cirmolo essential oil, **ideal for creating enveloping and relaxing atmospheres and for appreciating its warm and surprising flavor**. The Drops of Quietude Cirmolo Alpine Relax are suitable for **aromatherapy use**, and, thanks to a specific production protocol, they are also edible.

Traditionally used for **purification and as a balsamic aid**, the Drops of Quietude **enhance and prolong the aromatherapeutic effects of Cirmolo wood items** (such as diffusers, wood shavings, decor pieces, ...) by renewing their fragrance periodically.

A PLEASURE BORN FROM AN ANCIENT TRADITION

For centuries, Swiss stone pine has accompanied those living in the Alps, at the warm heart of mountain homes. In alpine kitchens, Swiss stone pine was crafted into ladles, cups, and cutting boards—simple utensils created **to support everyday life**. Today, that tradition has not disappeared; it has evolved. With Zuccari, this ancient knowledge enters your home: a precious Swiss stone pine sphere **transforms the simple act of drinking into a surprising sensory experience**.

CIRMOLO AND EDELWEISS FOR SKINCARE AND BEAUTY

In the pristine natural environments of the high Alpine altitudes, in addition to the precious Cirmolo, ZUCCARI has selected **another rare gift from the mountains: the noble Edelweiss** (also known as Stella Alpina). Its extract is **particularly valued in high-end cosmetics** due to its benefits: it is **antioxidant, moisturizing, soothing**, and creates a protective barrier against environmental factors that can disrupt the skin's balance.

Skin treated with Edelweiss extract remains exceptionally **more hydrated, elastic, and naturally youthful**. For these reasons, the ZUCCARI Research and Development Department has chosen Edelweiss as a special ingredient in the skincare of the Cirmolo Alpine Relax line.

SUPER ANANAS® SUPER ANANAS SLIM®

NATURE MADE THE PINEAPPLE, WE
HAVE ADDED “SUPER” AND “SLIM”

Pineapple is the “slimming fruit”
par excellence: tradition attributes
it various activities, from **digestive** to
draining without forgetting the **slimming**
and **anti-cellulite** properties.

Starting from the stem and the bio-active
pineapple juice, **ZUCCARI has developed**
an innovative range of solutions for
body weight balance: they combine the
virtues of specific active ingredients with the
pleasure of a tropical taste formula that
never gets boring.

Super Ananas and Super Ananas Slim
ensure a **high and guaranteed intake**
of Bromelain with a high GDU rating.
Bromelain is the **proteolytic enzyme**

HORMONIZE®

IT'S CALLED CORTISOL
BUT IT'S NOT THE ONLY THING
AFFECTING YOUR SHAPE

Why is it so difficult to get back in shape (and stay in shape) despite commitment, a healthy diet, and physical activity? Our ability to **lose weight** is often influenced by **hormones**. **Cortisol**, the **stress hormone**, is essential for our survival. In fact, when our body perceives a state of danger, it produces a spike in Cortisol to provide quick energy for the fight-or-flight response.

CORTISOL

THE DIRECTOR OF A HORMONAL IMBALANCE

THE MAIN HORMONES INVOLVED IN WEIGHT LOSS ARE:

CORTISOL
stress hormone

INSULIN
glucose hormone

GLP-1
weight loss hormone

GHRELIN
hunger hormone

LEPTIN
satiety hormone

ESTROGENS
femininity hormones

WHEN DOES CORTISOL BECOME AN ENEMY?

A state of **constant stress**, in terms of perception, has the **same impact as a real danger**. The body, always on alert, never lowers cortisol levels, **continuing to demand energy without it being used**.

HOW DOES CORTISOL AFFECT HORMONES?

To make more energy available to the body, Cortisol **raises glucose levels** and consequently **insulin** levels. Increased insulin production alters the gut microbiota and **reduces** the secretion of **GLP-1**, also known as the **weight-loss hormone**. To encourage us to eat more, Cortisol **increases** levels of ghrelin, the **hunger hormone**, while at the same time **decreasing** levels of leptin, the **satiety hormone**. Finally, it **negatively influences estrogen production**, with a consequent impact on how weight is distributed in the body.

WHAT ARE THE EFFECTS?

- **Increased hunger**, especially emotional eating, leading to cravings for sweets and carbohydrates
- **Accumulation** of abdominal fat
- **Slowing of metabolism**
- Tendency to develop **insulin resistance**
- **Mood changes**, lack of motivation, and a tendency to procrastinate

WEIGHT CONTROL

HORMONIZE®

A dietary supplement in plant-based capsules **specifically designed for women's weight management**, focusing on **hormonal balance starting from Cortisol**.

Useful for those who **struggle to reach or maintain their ideal weight**, particularly during **periods of stress**, often associated with **increased emotional eating or cravings for sweets**.

THE IMPORTANCE OF THE LYMPHATIC SYSTEM

The **lymphatic system is a circulatory system parallel to and integrated with the cardiovascular system**, performing various functions (transport of fatty acids, contribution to the immune system). Among these, a key role is to **ensure the return to the bloodstream of excess fluids** accumulated in the tissues, after being **purified**. In fact, **lymph nodes** are located along the lymphatic vessels and are responsible, among other things, for **filtering the lymph**. **Lymph** is the fluid that circulates in the **lymphatic system and collects from tissues water, proteins, fats, toxins, and other waste materials**, then flows back into the bloodstream after being purified. Unlike the cardiovascular system, **lymphatic circulation** is not driven by a “muscle pump” like the heart, but occurs through valves, body movement, and **lymphatic vessels** with contractile capacity, which **perform better the more elastic and toned they are**. Water retention, swelling, and loss of body shape can occur when, due to a variety of possible causes, **lymphatic circulation is insufficient and fluids accumulate in the tissues**.

VITALINFATIC 1000®

THE MISSION: TO COMBAT EXCESS FLUIDS ACCUMULATION BY SUPPORTING LYMPHATIC CIRCULATION

- 1 Excess fluid accumulation and loss of body shape**
 - **Excess fluids** are one of the main causes of losing body shape.
 - Causes: **diet, lifestyle**, and **specific disorders** or conditions.
- 2 The importance of lymphatic circulation**
 - Fluid retention is often due to **insufficient lymphatic circulation**.
 - **Mechanical action**, the so-called “**lymphatic drainage**,” stimulates lymph flow with only temporary results, as it **does not address the root causes**.
- 3 Active ingredients to support lymphatic circulation**
 - Well-being and **improvement of lymphatic circulation** can be supported through specific **plant-based active ingredients**.
 - These are active ingredients **widely used in medical practice and phytotherapy**.

LYMPHATIC DRAINAGE

VITALINFATIC 1000®

COMBATS THE ACCUMULATION OF EXCESS FLUIDS BY SUPPORTING LYMPHATIC CIRCULATION

A dietary supplement with an **exclusive combination of bioflavonoids and bioactive plant extracts** for a targeted, deep, and broad-spectrum action.

- ▶ **ready to drink**, in convenient **single-dose 25 ml vials**
- ▶ **with 1000 mg of bioflavonoids** per single dose (Diosmin + Hesperidin)
- ▶ with extracts of Butcher's Broom and Buckwheat to **support vascular well-being (lymphatic and venous)**
- ▶ with Pilosella and Lespedeza to **help fluid drainage**
- ▶ with Papain, a valuable proteolytic enzyme derived from papaya, which helps break down the protein components present in swelling, **reducing obstacles to the elimination of excess fluids**
- ▶ the **active ingredients** in the formulation are **delivered** in a base containing juice from the leaves (cladodes) of **Opuntia ficus-indica**, which **contributes to weight balance and helps limit nutrient absorption**.

DIOSMIN AND HESPERIDIN

THE VALUABLE SUPPORT OF BIO-FLAVONOIDS

Bio-flavonoids, natural compounds widely found in the plant kingdom, are able to exert **various biological activities** that are highly beneficial for the body.

The formulation of **VitaLinfatic 1000** includes one thousand milligrams of bioflavonoids: **900 mg of Diosmin** and **100 mg of Hesperidin** in a synergistic combination. They are extracted from citrus fruits and used in **micronized** form to increase their **bioavailability**.

Diosmin is used in pharmaceuticals and phytotherapy for its vasoprotective action and therapeutic properties in the vascular and circulatory field. Used in lymphatic disorders, even severe ones, it is known to improve vein tone and blood flow. **Hesperidin** is used in pharmaceuticals and phytotherapy in combination with Diosmin for its synergistic effect.

A STRONG NEED FOR DETOX

The need for **effective and deep detox action** is growing, as our bodies are increasingly exposed to harmful toxins.

The most common **modern lifestyles**, the **stress** we endure, the **environmental conditions** we live in, and the **irregularities** induced by various circumstances — including the consumption of **industrial and processed foods** — all negatively affect us.

IN SHORT

- ✓ the sources and causes of **exogenous toxin and heavy metal intake** in our bodies are **increasing**
- ✓ our natural **ability to eliminate them** is **decreasing**

DETOX

BLACKWATER DETOX®

TOTAL BODY RESET. 10-DAY TREATMENT

BlackWater Detox was designed for a profound and broad detoxifying and purifying action. With **high-dosage Himalayan Shilajit and fulvic acid** (500mg/dose), it's enhanced with **Fumitory** and **Dandelion** to **support the body's detox functions**, and with **Purslane** and **Artichoke** to **support liver functionality**.

The formula is further enriched with active plant extracts: **Chlorella**, **Coriander**, **Viola tricolor**, **Nettle**, **Birch**, and **Sunflower**.

What is Shilajit? It's a **rare and extraordinary organic compound** that forms naturally through the biochemical transformation of ancient plant deposits, typically in the Himalayas. It contains **numerous bioactive components**: fulvic acid, humic acid, dozens of minerals and electrolytes (calcium, magnesium, selenium, iron, ...), proteins, amino acids, and fatty acids.

BLACKWATER DETOX®

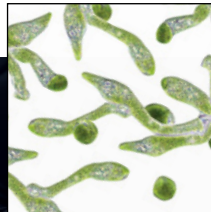

AN INNOVATIVE FORMULA FOR A DEEPER, BROADER DETOXIFYING EFFECT

1 METALREMOVER® COMPLEX

We are increasingly exposed to **heavy metals**: from polluted air and certain foods. Metals like lead, nickel, and mercury lack physiological functions and are **toxic**. **Our body tries to defend itself using special proteins with chelating action**: they bind to metals and help eliminate them. But our system has a **limited detox capacity**. That's why active ingredients that **support the body's natural chelating action** are helpful.

ZUCCARI has developed and integrated the exclusive **MetalRemover® Complex** into **BlackWater Detox**, combining the actions of precious freshwater algae **Chlorella vulgaris** with **Coriandrum sativum** (coriander).

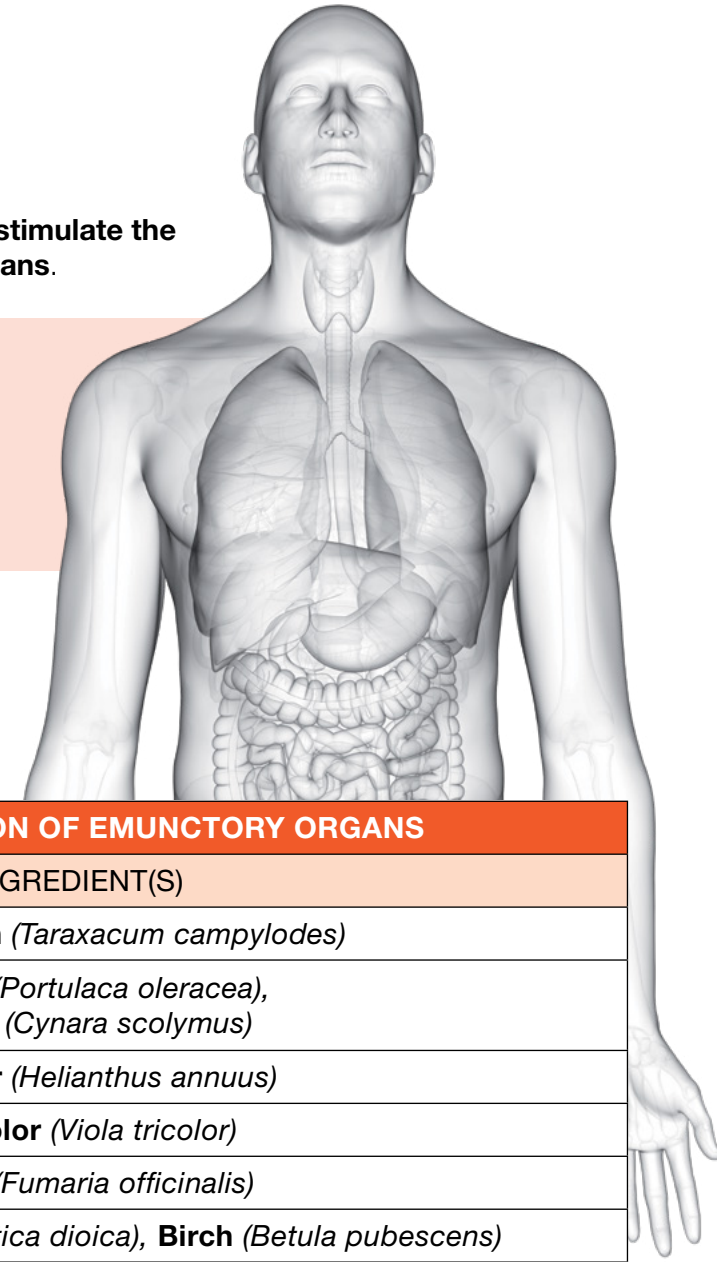

2 ACTIVATING MULTIPLE EMUNCTORY ORGANS

The BlackWater Detox formula is designed to **stimulate the detox functions** of **multiple emunctory organs**.

What are emunctory organs?

Organs through which the body eliminates toxins, heavy metals, and metabolic waste. The main ones are: **liver, intestine, lungs, kidneys, and skin**.

By activating several emunctory organs, our body can perform a more effective purification.

SUPPORT AND ACTIVATION OF EMUNCTORY ORGANS

EMUNCTORY ORGAN	ACTIVE INGREDIENT(S)
INTESTINE	Dandelion (<i>Taraxacum campylodes</i>)
LIVER	Purslane (<i>Portulaca oleracea</i>), Artichoke (<i>Cynara scolymus</i>)
SKIN / SWEATING	Sunflower (<i>Helianthus annuus</i>)
LUNGS / BRONCHI	Viola tricolor (<i>Viola tricolor</i>)
BILE	Fumitory (<i>Fumaria officinalis</i>)
KIDNEYS / URINARY	Nettle (<i>Urtica dioica</i>), Birch (<i>Betula pubescens</i>)

ABSOLUTE BIRCH®

THE GREAT BENEFITS OF AN EXTRAORDINARY PLANT

Birch is such an amazing plant: tall, sleek, beautiful, flexible, with lushy leaves and noble presence. It drinks a lot, draining liquids from wetlands, but it stays dry and healthy thanks its extraordinary “phyto-circulatory system”.

ZUCCARI's R&D Department has conducted a thorough research all around Birch and its **primary role in detox and purification properties**, as known in ancient traditions, along with its numerous features and those talents it delivers to the body.

Its liquid balancing action and its **deep purifying efficacy** have many **benefits on the body:**

- **Detox** (periodic, extraordinary)
- **Draining** (veins, lymphatic)
- **Functionality** of the urinary tract
- **Rebalancing** of the sweating process

ABSOLUTE BIRCH®

NOT ONLY LYMPH, BUT THE MOST VIRTUOUS PARTS OF THE PLANT

Absolute Birch contains **all the active ingredients from every relevant part of the plant**, to transmit the talent of the individual elements and their interaction to the organism.

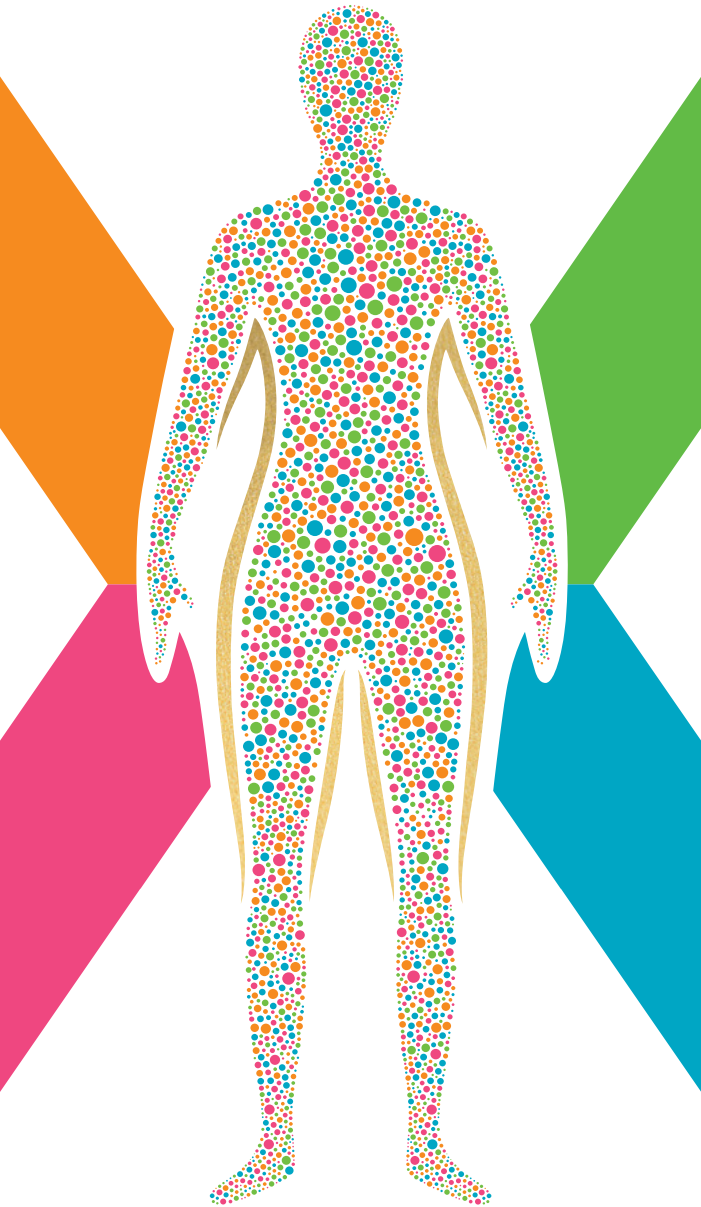

The ZUCCARI's Research and Development Department identified:

- The **8 parts of the plant** from 3 different varieties (Betula pendula, Betula pubescens, Betula lenta)
- The best performing **plant extracts**
- The **best extraction methods** to respect the natural original activity of each extract

888 FULL-BODY SLIM®
FROM THE SLIMMETABOL FORMULA
 THE SUPPLEMENT FOR METABOLIC SYNDROME AND OVERWEIGHT

Cholesterol, Glucose, Pressure and Drainage (Uric Acid) are parameters closely linked to weight that, in the long run, can lead to more and more significant problems until they can be defined under voice Metabolic Syndrome: not a disease but a clinical condition worthy of attention. According to scientific research that is internationally considered to be valid, ignoring these parameters **could lead to real diseases** and, of course, **more fat accumulation**.

When it is overt or there is a concrete risk of being in such a clinical situation, it is advisable to take action to **normalize in targeted and simultaneous manner: OVERWEIGHT and METABOLIC IMBALANCES**.

WEIGHT CONTROL

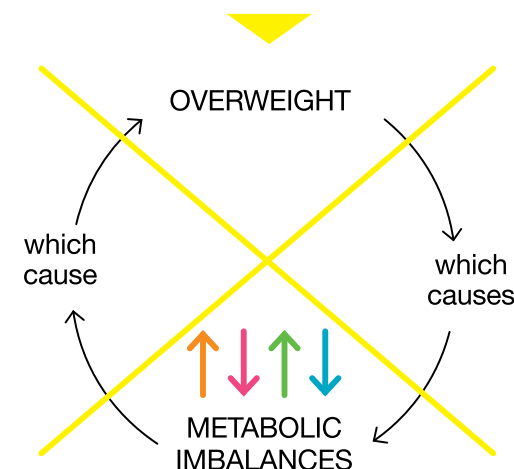

888 FULL-BODY SLIM®
 SLIM TO CURE, CURE TO SLIM

ZUCCARI PATENT

888 Full-Body Slim is the exclusive dietary supplement for **weight control** that focuses on **managing uncooperative metabolism and its effects**: from aesthetic (localised fat accumulation) to deeper (altered parameters, such as cholesterol, glucose, pressure and drainage).

888 Full-Body Slim is the first dietary supplement for weight control and with an outline designed **to break the VICIOUS CYCLE** between “**overweight**” and “**Metabolic Syndrome**”.

Bottle 888ml

with patented FORMULA 888

888 Full-Body Slim is formulated precisely to interrupt this cycle of causes and effects with **Formula 888, a mix of vegetal extracts and minerals** so innovative it's been patented.

SWELLING AND HEAVINESS IN THE LOWER LIMBS

Swelling, tightness and tiredness accumulating in the legs is a problem for many people. We often think of swelling during the warm season, but a **sedentary lifestyle or staying in one position for a long time** (anyone who spends many hours standing for work knows very well this sensation) can be a barrier to lightness in any season.

WHY DOES IT HAPPEN?

There are many factors that can contribute to heaviness in the legs and swollen ankles. Venous stasis for example, is a condition in which the blood does not flow freely in the veins: it stagnates in the tissues, accumulates, creating swelling.

Taking **certain medications or premenstrual syndrome can make the situation more difficult** to manage, especially when local tension increases.

FROM FORDREN EXPERIENCE COMES THE FORDREN SOLLIEVEN LINE

The Fordren Line is loved by all people who are looking for a daily **ally for water retention** (with Caigua and Equisetum) and **purification**. Its secret? **Formulations rich in high-performance natural active ingredients**. Fordren Sollieven Forte: two products for **lightness and relief** from discomfort such as **swelling** and **localized tension**, to treat the issue of **“heavy legs and ankles”** with a **360° systemic-topical approach**.

FOCUS: PARTHENIUM

Parthenium is a **powerful natural remedy** known since antiquity. Best known for being the natural remedy par excellence **in the prevention and treatment of headaches**. Studies have also revealed **hypotensive, antispasmodic and anti-inflammatory properties**; it also has a good **soothing effect on joint and muscle pain**.

WATER RETENTION

FORDREN SOLLIEVEN FORTE - TABLETS

MICROCIRCULATION FUNCTIONALITY AND LEG HEAVINESS

A dietary supplement with Red Vine and Centella for **microcirculation function** and **heavy legs**. Parthenium **contributes to combating localised states of tension**.

FISIODIUR® COLLAGEN

THE SOLUTION
THAT DID NOT EXIST BEFORE

ZUCCARI has created an **innovative synergy of beauty and well-being**, designed for the most demanding consumers of all ages: for all those who are not satisfied by simply **maintaining or recovering their best physical shape**, but also want to **effectively fight the undesired signs of ageing or caused by a rapid weight loss**. For a beautiful, firm and bright skin with less wrinkles and stretch marks, collagen plays a very important role.

WHAT IS COLLAGEN?

Collagen is a structural protein naturally present in our body that **forms a real support for the skin pattern**, with beneficial effects, **helping it to preserve its beauty**. Over time and with aging, the natural body's ability to produce new collagen **decreases**.

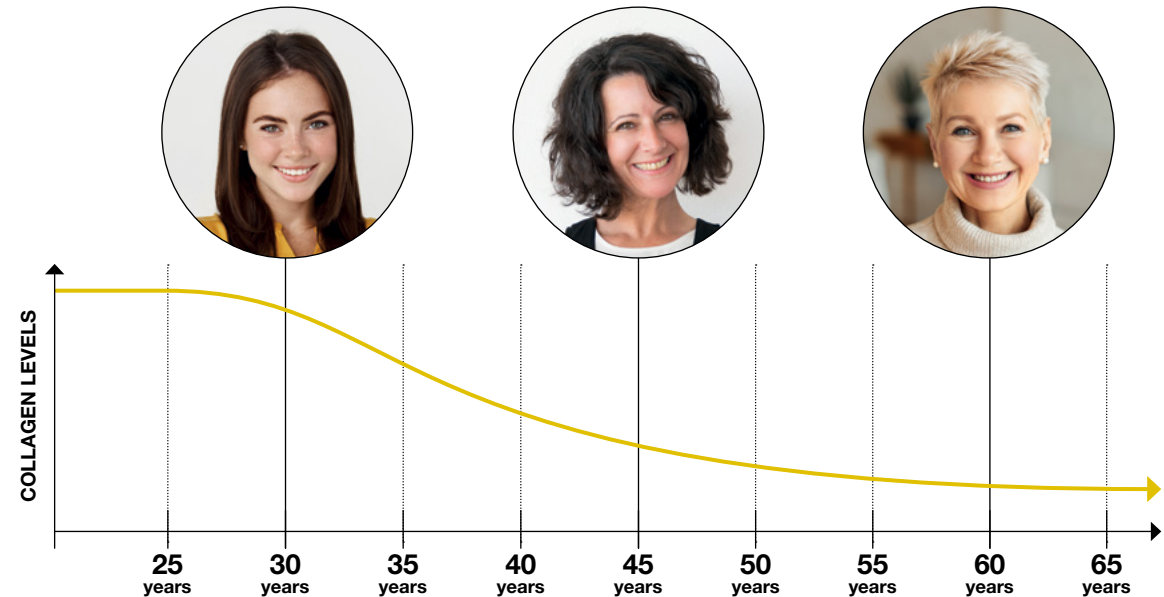

**WATCH
THE MOVIE**

WHAT HAPPENS DURING THE AGEING PROCESS?

- **Collagen balance is fundamental:** our body produces collagen but destroys it at the same time.
- The perfect balance between collagen production and degradation starts to **change from the age of 25 years**, when the body's capacity to produce collagen starts to decrease by 1% per year.

INDEX OF ENDOGENOUS COLLAGEN DEGRADATION IN RELATION TO AGE

With age, supplementation of exogenous drinking collagen becomes essential: effective and highly assimilable

BEAUTY AND LIGHTNESS

FISIODIUR® COLLAGEN

FOR THE SKIN BEAUTY, LIGHTNESS AND BODY WELL-BEING

With **hydrolyzed Marine Collagen** (2500mg per stick-pack) to promote a better absorption, and with Vitamin C for an **antioxidant action against free radicals** and to **promote a normal collagen formation**.

For an **even more effective action**, Fisiodiur Collagen is enriched with Hyaluronic acid, Hydroxyproline and Coenzyme Q10.

To **support the elimination of excess fluids and toxins**, the Fisiodiur Collagen phytoactive components perform a **draining action**, thanks to Goldenrod, Horsetail and Mulberry, and a **purifying action** promoted by Bush Clover.

Bush Clover and Mulberry bring an extra help: they promote the **metabolism of fats and carbohydrates**.

WEIGHT BALANCE FOR WOMEN

re-code® PLATINUM

AN ALLY THAT IS SCIENTIFICALLY EFFECTIVE FOR THE WOMAN WHO WANTS TO CONTROL HER WEIGHT AND RESHAPE HER SILHOUETTE

re-code PLATINUM re-code PLATINUM is a complete formula, developed for the **physiological weight control of the 30+ woman**, designed to obtain results **by focusing on the cause** (the oscillatory behaviour of estrogens) **rather than the symptom** (the increase in body weight). With **Gracinia cambogia**, re-code is a food supplement that compensates the **effects of hormonal imbalance**: among which **adiposity in the trouble zones** (like arms and hips), **change of silhouette** and **increase in body weight**.

METABOLIC ACTIVE INGREDIENTS

Rhubarb, Cassia nomame, Elder, Tamarind

DIURETIC ACTIVE INGREDIENTS

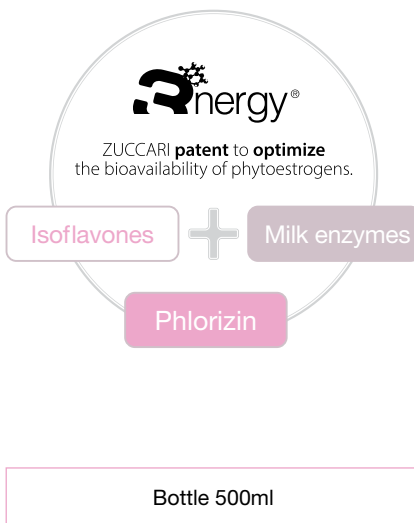

Birch, Devil's grass, Sweet clover, Hawkweed, Dandelion, Goldenrod, Horsetail

STRATEGIC ACTIVE INGREDIENTS

Sea collagen, Soluble fiber, L-theanine, Chromium picolinate

ANTIOXIDANT ACTIVE INGREDIENTS

Bio-fermented papaya, Blueberry, Selenium yeast, Copper sulphate

re-code® PLATINUM

THE CERTAINTY OF A CLINICAL STUDY

re-code is supported by a **clinical study** which differentiates from those related to the common products for the weight balance. The study was carried out **on two groups of women**: one treated with re-code and one with placebo, both were on a standard diet. The data was taken from **physiological parameters** and not only on the self-evaluation of a statistically significant number of consumers.

Finally, the study lasted for **90 days**, in comparison to a standard of 30. The results of the research are clear: "with a mildly hypocaloric diet and a regular physical exercise, re-code significantly aided weight loss with a slimming effect".

The clinical study has been published on the scientific journal "Current Topics in Nutraceutical Research".

MAGNESIUM

THE SALT OF LIFE
AND THE ENGINE OF THE BODY

Magnesium is one of the most important minerals for human life, as it is **involved in over 300 enzymatic reactions** and in almost every fundamental physiological process essential for health. An adequate amount of magnesium is **crucial for the proper functioning of muscles, heart, nervous system, mind, kidneys, bones, teeth, and energy metabolism.**

WHAT ARE THE CAUSES OF MAGNESIUM DEFICIENCY?

A **diet** high in sugars and refined carbohydrates, excessive consumption of coffee and tea, or alcohol abuse. The use of **diuretics, laxatives, and certain antibiotics** can also lead to deficiency. Among **medical conditions**, we should mention metabolic acidosis, hyperthyroidism, kidney failure, and celiac disease. Finally, **lifestyle factors**: insufficient or excessive physical activity and chronic stress.

PERFECT MAGNESIUM DOES NOT EXIST

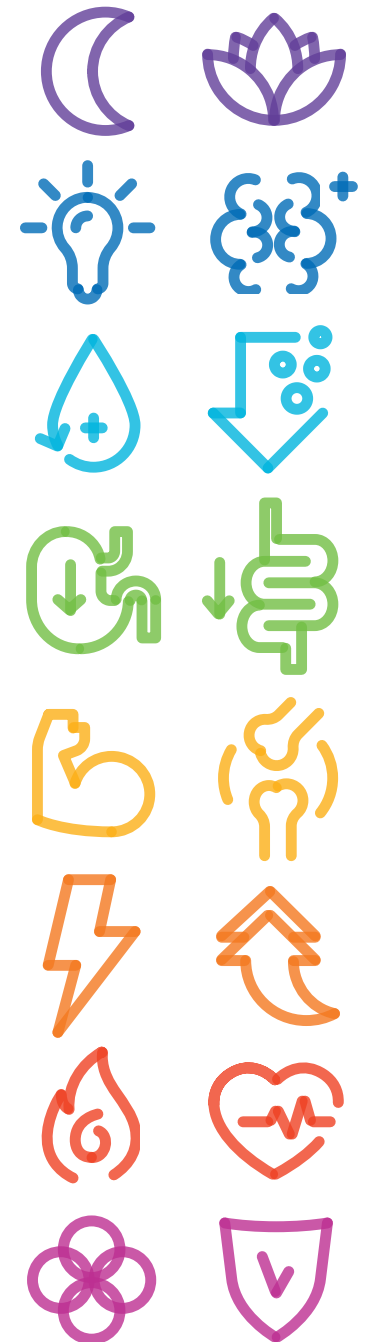

THE ONLY PERFECT MAGNESIUM IS THE ONE YOU PREPARE FOR YOURSELF

All magnesium salts have the same ability to support the body's overall biochemical balance, but each of them has developed excellence in a specific area. The different types of magnesium salts are like great players on a champion team, each specializing in a specific role on the field.

The **MyMagnesium** line was created to allow you to **choose and combine magnesium salts according to your needs**: 16 magnesium salts for as many needs—from sleep to relaxation, from intestinal regularity to muscle well-being.

MAGNESIUM MALATE: THE NAMING PARADOX

Magnesium malate takes its name from malic acid, a **fundamental element in the cellular respiration cycle and therefore in the life of the body.** It can be considered a strong all-rounder, highly bioavailable and well tolerated by the body—an ideal base for daily well-being. For this reason, magnesium malate is **included in all 16 formulations.**

DRINKING WATER, HOW AND WHEN

Drinking water is known to be good for you, but not everyone drinks enough: **there are those who drink water regularly, but are bored with the taste, and those who drink only when they are thirsty.**

Recently we are looking for “tricks” to improve our habits, trying to overcome the boredom of taste without introducing unnecessary elements such as added sugars, typically found in soft drinks.

BODY pH AND ACIDITY

To the difficulty of hydrating ourselves, we must add that of an increasingly acidified body! **The diet is unbalanced toward refined and acidifying foods**, such as prepackaged ones and animal-derived products. In addition to diet, there are other lesser-known causes of acidification, such as stress and lack of sleep, sedentariness or, conversely, strenuous physical activity. **The long-term effects of acidification are not pleasant:** kidney overload, metabolic imbalances and bone fragility are just a few examples.

WATERFIRST®

THE ZUCCARI SOLUTION

WaterFirst is the extraordinary line of water flavors composed of exquisite blends of only natural flavors, strictly free of sugars, sweeteners, dyes, and preservatives.

12 blends of natural flavors selected and combined by Master Flavorists to discover the pleasure of hydration by varying the taste, but not the effectiveness.

Alkacitrates® (a mix of Magnesium, Calcium and Zinc) are also added to each blend to support acid-base metabolism.

WaterFirst is the line that fits perfectly to new habits! Nowadays everyone likes to use a water bottle to personalize what they drink, both for ecological reasons and for the undeniable convenience, — not to mention the “booster effect”: to have one’s own water bottle always handy is a reminder for paying attention to hydration, thus reminding oneself to drink more.

KHARKADÈ, DRAGON FRUIT, AND ACEROLA
AMBER-NUANCED, SOOTHING, SPICY

Kharkadè rises from the hibiscus flower and brings with it the tones of tea sipped in a tent as evening falls over the desert. Dragon fruit brings the calm delicacy of oriental balance, while acerola completes the blend.

PINK GRAPEFRUIT, WATERMELON, AND JUNIPER
UNEXPECTED, EXUBERANT, PUNGENT

Symphony of fresh, intense aromas in an unexpected combination. The unmistakable citrusy note of pink grapefruit marries with the soft juiciness of watermelon; juniper brings its more balsamic accent.

ANISE, FENNEL, AND LIQUORICE
VIGOROUS, MYSTERIOUS, DEEP

The enigmatic Anise, digestive and vaguely spicy fennel, mysterious and persuasive liquorice. An intense blend that never tires.

PINEAPPLE, PAPAYA, AND PASSION FRUIT
EXOTIC, BRIGHT, DELICIOUS

The intense notes typical of a cocktail sipped on the beach. All the relaxing sociability of a tropical summer with a triumph of fruity freshness to rejuvenate you with a vacation that never ends.

For you in the mood for carefree creativity, if you have goals to achieve and want to feel the vitaminic boost. Silky peach, sumptuous mango, awakening ginger. This is the performance blend.

CUCUMBER, CITRON, AND DANDELION

REFRESHING, DYNAMIC, ELUSIVE

Cucumber knows how to be the cool, thirst-quenching refuge even during the hottest summer. Citron has a bold, revitalizing aroma, while dandelion tastes of purifying nature.

WATERFIRST® DESTINATIONS

A JOURNEY TO FLAVOR

The great success of WaterFirst® has led ZUCCARI to create a **capsule collection centered on the theme of travel**. The line's promise is to ideally accompany consumers to **exciting destinations** far from the usual tourist routes and, consequently, far from the most well-known and predictable flavors.

Every sip is a triumph for the senses: The WaterFirst® DESTINATIONS line transforms the escape of travel into a real experience, and hydration into the most pleasant of habits.

Four blends to aromatize your water every day with surprising tastes and, thus, drink more and better.

WaterFirst® DESTINATIONS, as the classic WaterFirst® line, is formulated with only natural flavors extracted from flowers, fruits, and plants; it is **without sugars, sweeteners, preservatives, and artificial colors** — and contains **Alkacitrates®** with a pH-balancing action.

DESTINATION JAPAN
Cherry Blossoms and Almonds
QUIET, REFINED, DIAPHANOUS

You are in **Hirosaki**, in the castle grounds. A cool breeze rustles the cherry trees, leaving the blossoms to swing in the air: it's sakura time. As the almonds unfold to beauty, everything around you, is in perfect balance. Each sip is a walk-through wonder.

And here you are practicing Hanami, literally "watching the flowers": the tradition involves admiring their delicacy, indulging in a small daily celebration of that fragility that makes existence so unique and worth savoring to the fullest.

Box 12 sachets

DESTINATION BRAZIL
Banana and Açaí
WILD, EXUBERANT, MAGNETIC

You are in **Paraty**, pearl of the Brazilian coast. A warm afternoon embraces you as you wander the cobblestone streets and admire the colorful little houses with that colonial architecture that seems to have remained suspended in time.

The coastal breeze creeps through the narrow streets as the "mata atlantica," the rainforest, bestows its lushest gifts: buttery bananas with firm flesh and delicious Açaí berries, tiny gluttonous rubies in perfect balance between sour and sugary. Each sip has the energy of the journey that recharges your soul.

Box 12 sachets

DESTINATION GREECE
Pear and Prickly Pear
 CARESSINGLY, IDYLIC, MELODIOUS

You are in **Folegandros**, off the tourist trail. At sunset you decide to walk up to the monastery and look at the Aegean with the eyes of History. How has everything remained so intact? It is a very long staircase that takes you up there, and with each step you see the day come to its climax to be enveloped in dark, sharp colors. It's as if the evening has decided to return to the air all the scents imprisoned during the day, when the sun is as high as the rocks.

You can distinguish two aromas: that of the juicy pear and that of the prickly pear that can be both exquisitely fruity and flowery.

Box 12 sachets

DESTINATION MADAGASCAR
Cocoa and Vanilla
 SILKY, SEDUCTIVE, HYPNOTIC

You are in **Sambava**, in the Sava region in the far North of the island. This is the birthplace of vanilla and cocoa, where the aromatic twins grow together in lush plantations. Leave the beaches behind and enter this wilderness path in which aromas burst forth. Plants compete to conquer the filtering light.

Each taste is seductive and silky-now it's clear to you why these spices have gripped entire nations by the throat for many centuries. What time is it? You couldn't tell for sure, and maybe you don't even want to know: the hypnotic dance of these flavors is winning you over.

OLIO DEL RE® YOUR BREATH ON THE THRONE

At **our birth breathing** is **rounded** and **without interruptions** but, during the growing process, stress and other everyday problems can **break the rhythm**. This causes bad and reduced oxygenation, **that has a negative effect on the quality of life** and the body's well-being.

Olio del Re (*the Italian for "essential oil of the king"*) product line promotes **uninterrupted breathing which helps the diaphragm** regulate the amount of oxygen thanks to the **myo-relaxing properties of the pure essential oils** specifically selected for the formulation of each product.

The Olio del Re **product line favours the total well-being** of the whole family, **preparing the best air** that can be breathed, **oxygenating it** and **teaching rounded breathing**.

Each product in the line has **a noble soul**, which breaks the chain of incorrect breathing, improving living conditions, and **a practical soul** for specific daily needs.

QUALITY OF BREATHING AND AIR

BIO-FERMENTED PAPAYA PRODUCT LINE

YOUTH, DEFENCES, ENERGY

ZUCCARI is the only company that produces in Italy bio-fermented papaya following a strict production protocol that involves a long bio-fermentation and a controlled-temperature nebulization.

Bio-fermentation is the only way to activate the **anti-oxidating efficacy of papaya, enhanced by the exclusive Optigran® granulation** that guarantees an immediate buccal solubility. Its **amazing taste** is the landmark of safeguarded actives.

FIRST CHOICE

We only pick up fruits that have reached the right degree of ripeness in lushy lands.

MANUAL HARVESTING AND PROCESSING

This is the only way to obtain the rich pulp whilst respecting both the fruit, and the plant.

CONTROLLED ATMOSPHERE STORAGE

We protect the raw material to preserve its effectiveness.

BIO-FERMENTATION

Papaya bio-ferments thanks to an excellent natural probiotic, *Saccharomyces boulardii*.

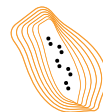

DIFFUSION-CONTROLLED "SPRAY-DRY"

By stabilizing pressure and temperature, we preserve all the characteristics of the bio-fermented fruit.

IMPALPABLE GRANULES

The ultra-fine granules of bio-fermented papaya pleasantly dissolve under the tongue.

ANTI-OXIDATING ENERGIZING

PAPAYA PURA

This food supplement is **completely made of bio-fermented, atomized and granulated *Carica papaya* pulp**, with natural **anti-oxidating properties** and an **immune defence system sustaining action**.

Papaya Pura is meant to help the body every time it faces **oxidative stress**, such as exposure to polluting substances and oxidating ones such as smog and cigarette smoke or **accumulation of free radicals** as a consequence of intense sport activities.
