ZUCCARI

2024 v.3

Material for the exclusive use
of the operators in this sector

I've always been passion-driven: a never-ending study about the issues that haunt humankind. I devoted my life and my business to find out natural solutions that could help everybody to get the perfect balance between body and mind.

This mission became real with ZUCCARI, established back in 1993 with my wife Katja and my father Giorgio, here in Trento where I was born and raised. We had been facing all the features of a very competitive and aggressive market, so we had to choose a way to stand out. We went for cutting-edge formulas, sophisticated products, sparkling communication and a never-seen-before wellbeing culture spread through books translated in several languages. We aim at turning every customer into a mindful human being, free to choose for himself or herself.

“There's no innovation without emulation” – ZUCCARI embraced this mantra to the extent that it keeps its pioneering and visionary mindset, pitching projects consistent with reality, improving it without interfering with its ways. Sometimes we took the less traveled road, sometimes we've been the “lonewolves” and time said we were right: year after year we've been building a solid company, among leaders in the industry, valued by professionals and loved by consumers.

Today ZUCCARI represents the Italian excellence in the world of food supplements, skincare and holistic wellbeing, the point of reference for everyone believing that “nature” means something more than just “natural”.

A stylized, handwritten signature in black ink that reads "Stefano Sala". The signature is fluid and cursive, with a long horizontal stroke extending to the left.

®[aloevera]²

DOUBLE CONCENTRATION
FOR DOUBLE EFFICACY

ALL THE ANSWERS GIVEN BY ALOE FOR BEAUTY AND WELL-BEING

Aloe vera is a real open-air chemical laboratory, able to synthesize (by using only water, sun and an impoverished soil) a great amount of active ingredients like: **water-soluble and fat-soluble vitamins, plant proteins, essential aminoacids, organic acids, enzymes and polysaccharides compounds in an extraordinary balanced mix.**

The formulations developed on the basis of the ®[aloevera]² product line are obtained through **ReversOsmose®**, a process applied for the first time on the Aloe vera. Reverse osmosis is a mechanical filtration process which allows the **raw material to be double concentrated**, removing some of the water contained, **without altering its bio-activity.**

ZUCCARI IS THE ALOE SPECIALIST OF HIGH-QUALITY AND UNPASTEURIZED ALOE SINCE 2001.

The thorough ZUCCARI production protocols provide for careful decortication and manual husking of every single Aloe leaf in order to **use only juice and pulp (“gel sine cute”)**. This **quality choice guarantees the absence of unwanted anthraquinone components**, present in the “peel” and in the “thorns”. Absence which is verified with accurate analysis on each lot of Aloe intended for ®[aloevera]² juices. It is also due to these ZUCCARI's Quality System procedures that ®[aloevera]² range's products are **naturally free** of aloin and **any other hydroxyanthracene derivative** as recently recommended by EFSA, the European Authority for food safety, with EU Regulation n. 2021/468.

ALOE JUICES

In a context of Aloe beverages and juices, ZUCCARI proposes a product line **with pure Aloe vera juice which is unpasteurized, non carbon filtered, double concentrated through ReversOsmose® process and without added water.** The properties of the double concentrated Aloe are offered in a primitive juice and others with the addition of **active ingredients** that are particularly effective and consistent with the **requirements of the current season.**

SKINCARE AND PERSONAL CARE

A range of products to satisfy the specific needs of well-being and beauty. This is the first product line in the world formulated without added water, completely replaced by the **pure Aloe vera juice, unpasteurized, non carbon filtered and double concentrated through the ReversOsmose® process.** The skincare range offers products for everyday needs: **cleansing, daily hygiene, anti-ageing and rescue total-body treatments.**

CONCENTRATED ALOE VERA ACCORDING TO ZUCCARI a careful and respectful production with the consumer in mind

FIRST CHOICE

Aloe vera produced exclusively from certified plantations

HAND PICKED

selection of the most healthy and fleshy leaves

CAREFULLY HAND WASHED

to effectively reduce the bacterial load without chemical treatments

MANUAL DECORTICATION

as even the most respectful industrial process could cause damage to the precious inner fillet

COLD FLUIDIZATION

to avoid compromising its bioactivity

NO PASTEURIZATION

a purified and correctly treated juice doesn't need to be pasteurized

Pasteurization is a process which could compromise the bioactivity of the Aloe vera. it's important to suggest the Aloe vera from ZUCCARI, strictly **UNPASTEURIZED.**

REVERSOSMOSE®

to concentrate the raw material through a respectful mechanical filtration process

JUICES

PURE ALOE JUICE

DOUBLE CONCENTRATED

Bottle 1000ml

ALOE OFM®

THE EXTRAORDINARY HEALTH BENEFIT
OF ALOE ARBORESCENS IN A VITAL SYNERGY

Aloe OFM is a formula inspired by the one widespread among missionaries all over the world, used to treat populations who didn't have the credit to fully access a welfare system. The administration in several countries has put **Aloe arborescens** (along with its high concentration of active principles) under the spotlight and it has led to consider its **healthy benefits especially when mixed with honey and brandy**. Aloe OFM is ideal in those cases when the body is particularly weak and needs more help.

FORMULATION

- **ALOE ARBORESCENS:** thanks to the high concentration of active principles, it delivers significant health benefits and it's great to sustain and detox also the weakest bodies
- **HONEY:** it prepares the body to absorb Aloe active principles
- **BRANDY:** a few drops per dose are enough to ensure a vasodilatory effect, plus it bonds with honey and Aloe in an extraordinary vital synergy

MAYDAY EMULGEL

GIVING THE GREEN LIGHT WITH YELLOW

From ZUCCARI, the innovative nano-emulsion that acts in depth and with a broad spectrum of actions, treating the most common consequences of **trauma and bruises and the most common muscle and osteo-articular discomforts.**

To be applied onto intact skin in case of trauma, bruises, muscle pain and in the skin areas corresponding to areas subject to **stiff neck, myalgia, epicondylitis, joint or tendon and ligament disorders, sprains and muscle tears.**

NANO-EMULSION, AN UNPRECEDENTED INNOVATION FOR A FUNCTIONAL SYNERGY

Mayday Emulgel was developed in **nano-emulsion** with **high skin affinity** for a **homogeneous delivery of active ingredients** through **liposomes of very small size.**

WHAT ARE LIPOSOMES?

Liposomes are small or very small vesicles (nanosomes), i.e., micro-cells of a very small size with a lipidic structure similar to that cell membranes: this results in high compatibility and a higher and deep efficacy.

**CONTUSIONS
MUSCLES
JOINTS**

MAYDAY EMULGEL

INNOVATIVE FORMULA WITH BROAD-SPECTRUM ACTION. IT ACTS FAST AND DEEPLY

The **broad-spectrum action** of Mayday Emulgel derives from its **rich exclusive formulation** made with a plurality of **highly titrated and specifically active botanical components: Parthenium and Hypericum extracts for effective soothing action**, even on **sore areas**; **White Willow extract** and **natural Bisabolol** to act locally on skin, including at tissues subject to **inflammation**; **Pineapple and Boswellia extracts** (titrated to 65 percent in boswellic acids) for an **anti-swelling effect**; **bio-active Horse Chestnut extract** (titrated to **90% escin**), also applicable onto skin areas subjected to **bruises and hematoma.**

Mayday Emulgel is formulated **without added water**, substituted with **unpasteurized, twice concentrated ZUCCARI's Aloe vera** for an even **more soothing action.**

FASTINGO®

ALLIES OF INTERMITTENT FASTING
FACILITATES. INTEGRATES. SUSTAINS.

Fasting more efficiently (and with fewer issues)

ZUCCARI has created **FastinGo®** line for all those who practice Intermittent Fasting, to help them **achieve their goals** and to support them in **countering the problems** that can result.

Intermittent Fasting is an eating regimen that concentrates food intake in a reduced period of time and involves a large time frame of daily fasting. The most popular mode is the 16:8, which divides the twenty-four hours into two: a **16-hour fasting phase and an 8-hour meal window**.

It has a well-deserved positive reputation, **supported by studies, much of the scientific community, numerous celebrities, and the media**. What's more, the practice of Intermittent Fasting is attributed with **benefits beyond weight control** making it popular even among **sporty people** and **health enthusiasts**. **Above all, it can be very effective.**

FASTINGO®

GUIDELINES FOR A BETTER
ADMINISTRATION

In order to obtain an **optimal support**, we advise the daily intake of **one serving (3 tablets) of FastinGo® Feeding Window, plus two servings (2 tablets each) of FastinGo® Fasting Phase**, interspreading them across the timetable as indicated in the following schemes, calibrated over the two main options of the most diffused mode: the “16:8”.

OPTION 1		OPTION 2	
WITHOUT BREAKFAST (meal window from 12:30 p.m. to 8:30 p.m.)		WITHOUT DINNER (meal window from 8:00 a.m. to 4:00 p.m.)	
FastinGo® FEEDING WINDOW	3 tablets at 12:30 p.m. with lunch at 1:00 p.m.	FastinGo® FASTING PHASE	2 tablets around 7 p.m. (e.g., drinking herbal tea) <i>and</i> 2 tablets right before bedtime (e.g., drinking herbal tea)
FastinGo® FASTING PHASE	2 tablets one hour before bedtime (e.g., drinking herbal tea) <i>and</i> 2 tablets when waking up the next day (e.g., drinking sugarfree coffee and water)	FastinGo® FEEDING WINDOW	3 tablets at 8:00 a.m. with breakfast at 8:30 a.m. <i>or</i> 3 tablets at noon with lunch at 1:30 p.m.

INTERMITTENT FASTING

FASTINGO® FASTING PHASE

Specifically designed to help you easily endure long hours without eating.

FACILITATES FASTING

Helps you physically and mentally endure long hours of fasting by regulating appetite (with 1g/dose of **Glucomannan*** and 150mg/day of 5-HTP from **Griffonia**).

COMBATS THE FEELING OF FATIGUE

Combats the feeling of fatigue and weakness through the integration of the amino acids **L-Arginine** and **L-Carnitine** and with the B vitamins (**B1**-Thiamine, **B2**-Riboflavin, **B3**-Niacin, **B5**-Pantothenic Acid, **B8**-Biotin, **B12**-Cobalamin).

DOES NOT INTERFERE WITH FASTING

FastinGo® Fasting Phase has been specifically formulated to be consumed on an empty stomach, even during long hours of food abstinence. It has also been designed not to interfere with or break the fast.

**Daily intake provided by 1 dose of FastinGo® Feeding Window plus 2 doses of FastinGo® Fasting Phase*

Box 60 tablets x 1.5g

INTERMITTENT FASTING

FASTINGO® FEEDING WINDOW

With functional ingredients that contribute to weight control.

FACILITATES APPETITE CONTROL

Helps you physically and mentally eat less and regulate your appetite with 1g/dose of **Glucomannan*** and 150mg/day of 5-HTP from **Griffonia**. With **Rhodiola** that supports good mood thanks to its tonic-adaptogenic action.

CONTRIBUTES TO WEIGHT LOSS

Besides the action of **Glucomannan**, **Matè** and **Açaí** support both fat metabolism and carb metabolism.

COMBATS POTENTIAL ISSUES

Counteracts the risk of losing lean mass with **Beta-alanine**. With **Yucca**, it improves bowel regularity. Enriched with the multi-activity of **Vitamin C**. Reduces weakness and fatigue with **Magnesium** and **Vitamin B6**, promoting energy metabolism.

USEFUL IN ANY WEIGHT CONTROL REGIMEN

The special formulation features of FastinGo® Feeding Window are ideal for those who practice Intermittent Fasting, making the product a useful and recommended supplement in any weight control diet.

ABSOLUTE BIRCH®

THE GREAT BENEFITS OF AN EXTRAORDINARY PLANT

Birch is such an amazing plant: tall, sleek, beautiful, flexible, with lushy leaves and noble presence. It drinks a lot, draining liquids from wetlands, but it stays dry and healthy thanks its extraordinary “phyto-circulatory system”.

ZUCCARI's R&D Department has conducted a thorough research all around Birch and its **primary role in detox and purification properties**, as known in ancient traditions, along with its numerous features and those talents it delivers to the body.

Its liquid balancing action and its **deep purifying efficacy** have many **benefits on the body**:

- **Detox** (periodic, extraordinary)
- **Draining** (veins, lymphatic)
- **Functionality** of the urinary tract
- **Rebalancing** of the sweating process

IDEAL TO BE
AND GET IN SHAPE

PURIFICATION AND DETOX

BETULLA SUPERIORE®

NOT ONLY LYMPH, BUT THE MOST VIRTUOUS PARTS OF THE PLANT

Absolute Birch contains **all the active ingredients from every relevant part of the plant**, to transmit the talent of the individual elements and their interaction to the organism.

The ZUCCARI's Research and Development Department identified:

- The **8 parts of the plant** from 3 different varieties (Betula pendula, Betula pubescens, Betula lenta)
- The best performing **plant extracts**
- The **best extraction methods** to respect the natural original activity of each extract

FISIODIUR® COLLAGEN

THE SOLUTION THAT DID NOT EXIST BEFORE

ZUCCARI has created an **innovative synergy of beauty and well-being**, designed for the most demanding consumers of all ages: for all those who are not satisfied by simply **maintaining or recovering their best physical shape**, but also want to **effectively fight the undesired signs of ageing or caused by a rapid weight loss**. **For a beautiful, firm and bright skin with less wrinkles and stretch marks, collagen plays a very important role.**

What is Collagen?

Collagen is a structural protein naturally present in our body that **forms a real support for the skin pattern**, with beneficial effects, **helping it to preserve its beauty**.

Over time and with aging, the natural body's ability to produce new collagen **decreases**.

THE MOVIE

What happens during the ageing process?

- **Collagen balance is fundamental:** our body produces collagen but destroys it at the same time.
- The perfect balance between collagen production and degradation starts to **change from the age of 25 years**, when the body's capacity to produce collagen starts to decrease by 1% per year.

INDEX OF ENDOGENOUS COLLAGEN DEGRADATION IN RELATION TO AGE

With age, supplementation of exogenous drinking collagen becomes essential: effective and highly assimilable

FISIODIUR® COLLAGEN

FOR THE SKIN BEAUTY, LIGHTNESS AND BODY WELL-BEING

With **hydrolyzed Marine Collagen** (2500mg per stick-pack) to promote a better absorption, and with Vitamin C for an **antioxidant action against free radicals** and to **promote a normal collagen formation**.

For an **even more effective action**, Fisiodiur Collagen is enriched with Hyaluronic acid, Hydroxyproline and Coenzyme Q10.

To **support the elimination of excess fluids and toxins**, the Fisiodiur Collagen phytoactive components perform a **draining action**, thanks to Goldenrod, Horsetail and Mulberry, and a **purifying action** promoted by Bush Clover.

Bush Clover and Mulberry bring an extra help: they promote the **metabolism of fats and carbohydrates**.

SWELLING AND HEAVINESS IN THE LOWER LIMBS

Swelling, tightness and tiredness accumulating in the legs is a problem for many people. We often think of swelling during the warm season, but a **sedentary lifestyle or staying in one position for a long time** (anyone who spends many hours standing for work knows very well this sensation) can be a barrier to lightness in any season.

WHY DOES IT HAPPEN?

There are many factors that can contribute to heaviness in the legs and swollen ankles. Venous stasis for example, is a condition in which the blood does not flow freely in the veins: it stagnates in the tissues, accumulates, creating swelling.

Taking **certain medications or premenstrual syndrome** can make the situation **more difficult** to manage, especially when local tension increases.

FROM FORDREN EXPERIENCE COMES THE FORDREN SOLLIEVEN LINE

The Fordren Line is loved by all people who are looking for a daily **ally for water retention** (with Caigua and Equisetum) and **purification**. Its secret? **Formulations rich in high-performance natural active ingredients**. Fordren Sollieven Forte: two products for **lightness and relief** from discomfort such as **swelling** and **localized tension**, to treat the issue of “**heavy legs and ankles**” with a **360° systemic-topical approach**.

FOCUS: PARTHENIUM

Parthenium is a **powerful natural remedy** known since antiquity. Best known for being the natural remedy par excellence **in the prevention and treatment of headaches**. Studies have also revealed **hypotensive, antispasmodic and anti-inflammatory properties**; it also has a good **soothing effect on joint and muscle pain**.

SUPER ANANAS® & SUPER ANANAS SLIM®

NATURE MADE THE PINEAPPLE, WE
HAVE ADDED “SUPER” AND “SLIM”

Pineapple is the “slimming fruit”
par excellence: tradition attributes to
it various activities, from **digestive** to
draining without forgetting the **slimming**
and **anti-cellulite** properties.

Starting from the stem and the bio-
active pineapple juice, **ZUCCARI**
has developed an innovative
range of solutions for body weight
balance: they combine the virtues
of specific active ingredients with
the **pleasure of a tropical taste**
formula that never gets boring.

WHAT IS BROMELAIN?

Bromelain is the proteolytic enzyme **naturally**
present in fresh fruit giving its **well-known**
digestive and beauty properties. Its bio-
activity is measured with a specific unit
of measurement: the **GDU**.

Super Ananas & Super Ananas Slim

RETENTION**

SUPER ANANAS®

Super Ananas is the food supplement that combines the **pleasure of a juice at the end of a meal** with the efficacy of pineapple stem extract to combat **difficult digestion, water retention, bloating and cellulite blemishes**. Perfect for all those who love to end the meal with some pineapple slices, but they cannot access to the fresh fruit and at the same time **don't want to choose between high-calorie canned pineapples or juices**, usually depleted from their natural actives because of potentially aggressive processes, such as pasteurization. Also suitable **for all those who want to drain and slim with the sweetness of a pineapple juice at the end of the meal**.

TRILOGYN MENOPAUSE®

THE RICH FORMULA WITH ISOFLAVONES FROM PUERARIA LOBATA IN AN ACTIVE SYNERGY TO PERFORM A HIGH BIO-AVAILABILITY AND AN EFFECTIVE ABSORPTION

Every woman has **different gut conditions**: these differences have lead to variable results when it comes to the administration of phytoestrogens. Trilogyn Menopause® is the ZUCCARI's patent which, through the synergistic action of its components, allows to **overcome the problem of absorption variability, providing women with the max benefits.**

ISOFLAVONES from Pueraria Lobata (Kudzu)

This precious and spontaneous plant with Asian origins contains **6 different types of Isoflavones-phytoestrogens**, all of them with a high level of resistance to the degradation in the gut lumen. This characteristic allows them, once absorbed, a better permanence inside of the bloodstream.

For comparison: soy has just two kind of phytoestrogens; red clover just four of them.

NOBLE LACTIC FERMENTS

Tindalized Lactobacillus casei and Lactobacillus acidophilus are the best allies to obtain a **gut ecosystem suitable for the correct absorption** of Isoflavones.

PHLORIZINE

This active principle extracted from Apple works in synergy with selected Lactic ferments, improving the (almost total) **passage** of Isoflavones **through the gut walls.**

ZUCCARI uses Trilogyn Menopause® patent in two products specifically developed for women in pre-menopause and menopause: Fordren® Complete Woman Drainage and Super Ananas Slim® Woman.

Not only the **best actives** for menopause, but also the **creation of the ideal condition** to obtain benefits and the guarantee of a **perfect absorption.**

SLIMMETABOL®

METABOLIC SYNDROME AND OVERWEIGHT

Cholesterol, Glucose, Pressure and Drainage (Uric Acid) are parameters closely linked to weight that, in the long run, can lead to more and more significant problems until they can be defined under voice Metabolic Syndrome: not a disease but a clinical condition worthy of attention. According to scientific research that is internationally considered to be valid, ignoring these parameters **could lead to real diseases** and, of course, **more fat accumulation**.

When it is overt or there is a concrete risk of being in such a clinical situation, it is advisable to take action to **normalize in targeted and simultaneous manner: OVERWEIGHT and METABOLIC IMBALANCES**.

WEIGHT BALANCE FOR WOMEN

THE CERTAINTY OF A CLINICAL STUDY

re-code is supported by a **clinical study** which differentiates from those related to the common products for the weight balance. The study was carried out **on two groups of women**: one treated with re-code and one with placebo, both were on a standard diet. The data was taken from **physiological parameters** and not only on the self-evaluation of a statistically significant number of consumers. Finally, the study lasted for **90 days**, in comparison to a standard of 30. The results of the research are clear: “with a mildly hypocaloric diet and a regular physical exercise, re-code significantly aided weight loss with a slimming effect”. **The clinical study has been published on the scientific journal** “Current Topics in Nutraceutical Research”.

HYDRATION? EASIER SAID THAN DONE!

DRINKING WATER, HOW AND WHEN

Drinking water is known to be good for you, but not everyone drinks enough: **there are those who drink water regularly, but are bored with the taste, and those who drink only when they are thirsty.**

Recently we are looking for “tricks” to improve our habits, trying to overcome the boredom of taste without introducing unnecessary elements such as added sugars, typically found in soft drinks.

BODY pH AND ACIDITY

To the difficulty of hydrating ourselves, we must add that of an increasingly acidified body! **The diet is unbalanced toward refined and acidifying foods**, such as prepackaged ones and animal-derived products. In addition to diet, there are other lesser-known causes of acidification, such as stress and lack of sleep, sedentariness or, conversely, strenuous physical activity. **The long-term effects of acidification are not pleasant:** kidney overload, metabolic imbalances and bone fragility are just a few examples.

WATER FIRST®

THE ZUCCARI SOLUTION

Water First is the the extraordinary line of water flavors composed of exquisite blends of only natural flavors, strictly free of sugars, sweeteners, dyes, and preservatives.

12 blends of natural flavors selected and combined by Master Flavorists to discover the pleasure of hydration by varying the taste, but not the effectiveness.

Alkacitrates® (a mix of Magnesium, Calcium and Zinc) are also added to each blend to support acid-base metabolism.

Water First is the line that fits perfectly to new habits! Nowadays everyone likes to use a water bottle to personalize what they drink, both for ecological reasons and for the undeniable convenience, — not to mention the “booster effect”: to have one’s own water bottle always handy is a reminder for paying attention to hydration, thus reminding oneself to drink more.

KHARKADÈ, DRAGON FRUIT, AND ACEROLA

AMBER-NUANCED, SOOTHING, SPICY

Kharkadè rises from the hibiscus flower and brings with it the tones of tea sipped in a tent as evening falls over the desert. Dragon fruit brings the calm delicacy of oriental balance, while acerola completes the blend.

PINK GRAPEFRUIT, WATERMELON, AND JUNIPER

UNEXPECTED, EXUBERANT, PUNGENT

Symphony of fresh, intense aromas in an unexpected combination. The unmistakable citrusy note of pink grapefruit marries with the soft juiciness of watermelon; juniper brings its more balsamic accent.

WATER FIRST® DESTINATIONS

A JOURNEY TO FLAVOR

The great success of WaterFirst® has led ZUCCARI to create a **capsule collection centered on the theme of travel**. The line's promise is to ideally accompany consumers to **exciting destinations** far from the usual tourist routes and, consequently, far from the most well-known and predictable flavors.

Every sip is a triumph for the senses: The WaterFirst® DESTINATIONS line transforms the escape of travel into a real experience, and hydration into the most pleasant of habits.

Four blends to aromatize your water every day with surprising tastes and, thus, drink more and better.

WaterFirst® DESTINATIONS, as the classic WaterFirst® line, is formulated with only natural flavors extracted from flowers, fruits, and plants; it is **without sugars, sweeteners, preservatives, and artificial colors** — and contains **Alkacitrati®** with a pH-balancing action.

DESTINATION JAPAN
Cherry Blossoms and Almonds
QUIET, REFINED, DIAPHANOUS

You are in **Hirosaki**, in the castle grounds. A cool breeze rustles the cherry trees, leaving the blossoms to swing in the air: it's sakura time. As the almonds unfold to beauty, everything around you, is in perfect balance. Each sip is a walk-through wonder.

And here you are practicing Hanami, literally “watching the flowers”: the tradition involves admiring their delicacy, indulging in a small daily celebration of that fragility that makes existence so unique and worth savoring to the fullest.

Box 12 sachets

DESTINATION BRAZIL
Banana and Açaí
WILD, EXUBERANT, MAGNETIC

You are in **Paraty**, pearl of the Brazilian coast. A warm afternoon embraces you as you wander the cobblestone streets and admire the colorful little houses with that colonial architecture that seems to have remained suspended in time.

The coastal breeze creeps through the narrow streets as the “mata atlantica,” the rainforest, bestows its lushest gifts: buttery bananas with firm flesh and delicious Açaí berries, tiny gluttonous rubies in perfect balance between sour and sugary. Each sip has the energy of the journey that recharges your soul.

Box 12 sachets

DESTINATION GREECE
Pear and Prickly Pear
CARESSINGLY, IDYLLIC, MELODIOUS

You are in **Folegandros**, off the tourist trail. At sunset you decide to walk up to the monastery and look at the Aegean with the eyes of History. How has everything remained so intact? It is a very long staircase that takes you up there, and with each step you see the day come to its climax to be enveloped in dark, sharp colors. It's as if the evening has decided to return to the air all the scents imprisoned during the day, when the sun is as high as the rocks.

You can distinguish two aromas: that of the juicy pear and that of the prickly pear that can be both exquisitely fruity and flowery.

Box 12 sachets

DESTINATION MADAGASCAR
Cocoa and Vanilla
SILKY, SEDUCTIVE, HYPNOTIC

You are in **Sambava**, in the Sava region in the far North of the island. This is the birthplace of vanilla and cocoa, where the aromatic twins grow together in lush plantations. Leave the beaches behind and enter this wilderness path in which aromas burst forth. Plants compete to conquer the filtering light.

Each taste is seductive and silky-now it's clear to you why these spices have gripped entire nations by the throat for many centuries. What time is it? You couldn't tell for sure, and maybe you don't even want to know: the hypnotic dance of these flavors is winning you over.

BIO-FERMENTED PAPAYA PRODUCT LINE

YOUTH, DEFENCES, ENERGY

ZUCCARI is the only company that produces in Italy bio-fermented papaya following a strict production protocol that involves a long bio-fermentation and a controlled-temperature nebulization.

Bio-fermentation is the only way to activate the **anti-oxidating efficacy of papaya, enhanced by the exclusive Optigran® granulation** that guarantees an immediate buccal solubility. Its **amazing taste** is the landmark of safeguarded actives.

FIRST CHOICE

We only pick up fruits that have reached the right degree of ripeness in lushy lands.

MANUAL HARVESTING AND PROCESSING

This is the only way to obtain the rich pulp whilst respecting both the fruit, and the plant.

CONTROLLED ATMOSPHERE STORAGE

We protect the raw material to preserve its effectiveness.

BIO-FERMENTATION

Papaya bio-ferments thanks to an excellent natural probiotic, *Saccharomyces boulardii*.

DIFFUSION-CONTROLLED "SPRAY-DRY"

By stabilizing pressure and temperature, we preserve all the characteristics of the bio-fermented fruit.

IMPALPABLE GRANULES

The ultra-fine granules of bio-fermented papaya pleasantly dissolve under the tongue.

ANTI-OXIDATING ENERGIZING

PAPAYA PURA

This food supplement is **completely made of bio-fermented, atomized and granulated Carica papaya pulp**, with natural **anti-oxidating properties** and an **immune defence system sustaining action**.

Papaya Pura is meant to help the body every time it faces **oxidative stress**, such as exposure to polluting substances and oxidating ones such as smog and cigarette smoke or **accumulation of free radicals** as a consequence of intense sport activities.

BIO-FERMENTED PAPAYA COSMETICS LINE

DISCOVER THE FIRST ANTI-AGING LINE WITH BIO-FERMENTED PAPAYA PATENTED FOR COSMETIC USE THAT REVEALS AND ENHANCES YOUR NATURAL BEAUTY.

ZUCCARI bio-fermented papaya is processed according to an **exclusive production protocol** that guarantees its **maximum activity**. In addition to the recognized benefits offered by our Bio-fermented Papaya food supplements, **we have also chosen to support your skin** through a **cosmetic line dedicated to prolonging youth**.

EFFECTIVE, YES. WE DON'T JUST SAY IT YOU SAY IT TOO

ZUCCARI's bio-fermented Papaya for cosmetic use has undergone extensive clinical efficacy tests on 15 subjects with these results:

STIMULATES COLLAGEN SYNTHESIS

Bio-fermented Papaya with a 3% concentration has been shown to be **effective in stimulating the collagen synthesis** resulting in a 7% increase in collagen synthesis.

INDUCES RECOVERY OF HYDRATION VALUES

Bio-fermented papaya with a 3% concentration, applied to chemically stressed skin, induces its **recovery of hydration values** significantly faster than the control group (who did not use it).

REDUCES SKIN DRYNESS

Bio-fermented papaya with a 3% concentration absorbs into the skin reducing scaliness and skin dryness proving its **emollient efficacy**.

SHOWS SIGNIFICANT RENEWING ACTIVITY

Bio-fermented papaya with a 3% concentration shows **significant keratolytic renewing activity well tolerated by the skin**.

ANTI-AGE

ANTI-AGEING ILLUMINATING FACE CREAM DISTENSIVE – RENOVATING

If you're facing the first wrinkles and those signs of fatigue that don't make you feel comfortable, the Illuminating Anti-aging Distensive and Renovating Face Cream is the treatment for you. **It captures light and reflects it to camouflage the effects of time, transmitting instant radiance.**

With a 3% concentration of bio-fermented Papaya and its illuminating complex of peptides, enzymes and vitamins, it **hydrates the skin and leaves it light**, free to breathe and free to look at its best.

It is also an **ideal choice for more mature skin** that, during hot weather, is intolerant of very rich textures. **It is an excellent base for make-up!**

Dermatologically tested and nickel tested formula. Free of parabens, oils minerals, silicones, liquid paraffine.

ANTI-AGEING EYE CREAM

ILLUMINATING – DEFATIGATING

It may happen to have a night with poor sleep, or to spend long hours on computers, tablets and smartphones. The gesture that restores beauty to the contour eyes must be effective, but at the same time integrate into the routine without prolonging it.

The Illuminating and Defatigating Anti-aging Eye Cream **completes the routine of youthfulness**: helping with a quick massage and (gently) patting the treatment in the affected area, **the eye look will immediately appear fresher and more vibrant**, giving the entire face a more rested and youthful aspect. This treatment, with a concentration of bio-fermented Papaya at 3%, can never be missing from the clutch bag you carry with you for a quick touch-up - for example, when you feel fatigue dulling your eyes, but you don't want to give up looking at your best.

Dermatologically tested and nickel tested formula. Free of parabens, oils minerals, silicones, liquid paraffine.

Tube 18ml

ANTI-AGE

ANTI-AGEING CREAM CLEANSER

RENOVATING – NUTRIENT

Having mature skin does not mean (unfortunately!) being able to forget about sensitivity, drier areas, oilier areas prone to blemishes. A standard approach to cleansing may be too aggressive, depriving the epidermis of the natural hydro-lipidic film that protects it.

The texture and formulation chosen for the Renovating Nutrient Anti-Age Cream Cleanser **pampers the skin with a rich texture that shifts the cleansing toward hydration and nourishment**. With bio-fermented papaya and its complex of valuable enzymes and vitamins, you can gently **exfoliate your face, neck and décolleté to stimulate cell renewal every day**. A true **wellness ritual** that you will hardly want to give up!

Dermatologically tested and nickel tested formula. Free of parabens, oils minerals, silicones, liquid paraffine.

MEMORY: A GREAT VALUE WITH A DOUBLE SOUL

Memory is both a **psychic** and **neural** function. It involves both the **mind** and the **brain**. It works by combining cognitive and emotional processes with the neurophysiological functions of the central nervous system. For every person, memory and remembrance have a **great practical utility** and an **important value and identity role**, fundamental for everyone's mental well-being.

ENVIRONMENT, MEMORY DIFFICULTIES AND MENTAL WELL-BEING

It is physiological to **go through periods** during which there is a distinct feeling of having less memory and of forgetting many small and large things more easily. Mental capacities for recollection and memory depend on a **plurality of factors**: subjective factors, physio-pathological causes and "environmental" motivations. The latter mainly refer to the increasing **complexity of the relationship between each person and his or her surroundings**, near or far.

Personal causes (difficulties, commitments, ...), **social factors** (family, relationships, work environment, ...) and **global dynamics** (uncertainties, changes, new technologies, ...) can in fact combine to put pressure on the mind and psyche **making it more difficult for the normal functioning of cognitive and mnemonic abilities**. In such a situation, they tend to **worsen the quality and meaning of life**: people forget the little things of everyday life, struggle to fully remembering one's big and small experiences, it becomes difficult to keep in mind all the commitments, one finds oneself in difficulty.

The result is a negative practical and emotional impact that can result into a **vicious cycle**, putting the mind and psyche under an increasing pressure, generating **lower mental well-being** which, in turn, leads to **further loss of recollection and memory**.

MEMORY

MMM...MEMO!

THE FOOD SUPPLEMENT THAT HELPS REMINISCENCE AND MEMORY

MMM...Memo! is designed to **help reminiscence and memory by following an innovative approach that considers the plurality of factors** that can affect the reduction of one's memory capacity: subjective factors, objective and environmental. MMM...Memo! helps and supports reminiscence, memory, cognitive function and well-being with **Bacopa** (titrated in Bacosides). With **Eschscholzia** (titrated in Protopin) for stress relaxation. It contains **Gynostemma pentafillum** (titrated in Gypenosides) and **Rhodiola** (titrated in Rosavin and Salidroside) for a tonic-adaptogenic action. It is also formulated with **Phosphoserine**, which participates in several important brain metabolic processes. It is also enriched with specific amino acids (**Asparagine** and **Glutamine**) that aid neurotransmitter synthesis. Finally, it contains **Vitamin B6** that helps support the nervous system and psychological function.

PURASEPTIC®

THE EXTRAORDINARY INNOVATION
SILVER TEA TREE OIL®

ZUCCARI has developed an innovative methodology: the Patent Silver Tea Tree Oil®.

Colloidal silver incorporated in pure Tea Tree Essential Oil for an **original highly bioactive synergy** with natural **antimicrobial, antifungal and bacteriostatic virtues** thanks to components used against **blemishes, disorders and discomforts** often **caused by unwanted and harmful external pathogens**.

A patent that stems from ZUCCARI research for countless applications for the **well-being of skin, nails, hair, intimate areas, and the oral cavity**. It constitutes the effective formulation core of the entire PurAseptic line.

PURASEPTIC®

QUALITY AND EFFICACY IN THREE NUMBERS

Optimal composition in terpenes with high amounts of Ag⁺ ions

TERPINOL	CINEOL
38% is the minimum content of 1-terpinen-4-ol for a high bio-activity.	5% 1,8-Cineol never over 5%: the threshold that provides excellent therapeutical activity without irritative actions.
COLLOIDAL SILVER	
36 ppm	Colloidal Silver already shows efficacy starting from a concentration of 20ppm. ZUCCARI has reached 36ppm , almost doubling the efficacy amount, while staying in the area of maximum tolerability.

TERPENES

FRAGRANT, VALUABLE AND NATURALLY ACTIVE

Terpenes represent a large group of aromatic molecules found in many plants. They are the main components of resins and essential oils. They give each flower or plant their characteristic scent. **They are biologically active. Their primary role is to protect plants from bacteria, fungi, parasites and other harmful agents.**

TEA TREE OIL

WATCH THE MOVIE

CÌRMOLO, AKA SWISS PINE: THE TREE OF SLEEP AND RELAXATION

The Cirmolo (or Swiss Pine) is a rather rare conifer found only in certain areas of the Alpine arc. It is also known as the “tree of sleep” and is used for its aromatic wood in all spaces where relaxation is paramount (such as saunas and spas) and where deep, restful sleep is essential (such as in the bedrooms of the most prestigious hotels). Even today, Cirmolo wood is preferred for decorating mountain homes, especially in the stube, the room dedicated to social gatherings. In the past, having an entire decor made of Cirmolo wood was a noble privilege; today, one can still visit castles where the Cirmolo continues to release its natural calming fragrance.

WHAT CAN CÌRMOLO BE FOR YOU?

- **A TEACHER** that shares its talents to show you the path to well-being every day.
- **AN INSPIRATION** because it has learned to live and thrive in extreme temperatures, ranging from -20°C to +40°C, growing very slowly but with strength and resilience.
- **A MYSTERY** because, despite scientific studies confirming its effectiveness, the mechanisms that make it so effective in promoting calm and relaxation are still unknown.
- **A TREASURE** that must be protected and valued. To preserve its virtues, its noble essential oil is extracted using the most respectful process: steam distillation.

CÌRMOLO WORKS

AND CLINICAL STUDIES CONFIRM IT

An independent study conducted with European Union funding at the Joanneum Research Institute (Austria)* in 2002 examined the effects of Cirmolo, revealing remarkable results:

- **HEARTBEATS SAVED**

Participants who slept in a Cirmolo bed had a lower heart rate than usual. As many as 3,500 fewer heartbeats were measured, which over a day means the heart saves about an hour of work.

- **INCREASED RELAXATION**

The essential oil in Cirmolo wood was found to promote greater relaxation and significant tranquility, with a positive effect on the nervous system and a reduction in stress.

- **LESS WEATHER SENSITIVITY**

Participants who slept in a Cirmolo bed were less sensitive to changes in air pressure and humidity, indicating an increase in overall well-being.

CIRMOLO AND EDELWEISS FOR SKINCARE AND BEAUTY

In the pristine natural environments of the high Alpine altitudes, in addition to the precious Cirmolo, ZUCCARI has selected **another rare gift from the mountains: the noble Edelweiss** (also known as Stella Alpina). Its extract is **particularly valued in high-end cosmetics** due to its benefits: it is **antioxidant, moisturizing, soothing**, and creates a protective barrier against environmental factors that can disrupt the skin's balance.

Skin treated with Edelweiss extract remains exceptionally **more hydrated, elastic, and naturally youthful**. For these reasons, the ZUCCARI Research and Development Department has chosen Edelweiss as a special ingredient in the skincare of the Cirmolo Alpine Relax line.

OLIO DEL RE®

YOUR BREATH ON THE THRONE

At **our birth breathing** is **rounded** and **without interruptions** but, during the growing process, stress and other everyday problems can **break the rhythm**. This causes bad and reduced oxygenation, **that has a negative affect on the quality of life** and the body's well-being.

Olio del Re (*the Italian for "essential oil of the king"*) product line promotes **uninterrupted breathing** which helps the **diaphragm** regulate the amount of oxygen thanks to the **myo-relaxing properties of the pure essential oils** specifically selected for the formulation of each product.

The Olio del Re **product line favours the total well-being** of the whole family, **preparing the best air** that can be breathed, **oxygenating it** and **teaching rounded breathing**.

Each product in the line has a **noble soul**, which breaks the chain of incorrect breathing, improving living conditions, and a **practical soul** for specific daily needs.

SNELLOPET®

THE RESPONSE TO AN INCREASINGLY WIDESPREAD NEED.

Pets are full-fledged members of the family and we take care of their well-being, just like a parent does with a child (more and more people talk about dog-mom or cat-mom).

ZUCCARI launches its Pet Division dedicated to the well-being of pets. In the Pet Division, each product is developed with the same care in the selection of raw materials, the processing, and the formulation synergies of the supplements for human consumption.

More than a half of dogs and cats suffer overweight or obesity. Among the most common causes are: an incorrect diet what won't respect the needs of the pet (how often do we feed our pet a bite of "forbidden food"?), overfeeding, neutering, breed predisposition, lack of mental and physical activity.

SNELLOPET®

THE LINE THAT RESTORES
BALANCE WITH BENEFITS
FOR EVERYONE.

Snellopet, available in two formulas, one specific for cats and one specific for dogs, aims to:

- **help pets regain physical well-being through healthy weight management**
- provide peace of mind for pet owners, who can take care of their pets whilst curbing excesses
- help both pets and owners live their best lives, promoting physical and emotional well-being
